

TOUGH COMPUTERS FOR TOUGH CONDITIONS

APC TECHNOLOGY E-TIMES

NOVEMBER 2008

High Temperature Systems

Designed for environments where temperature is extreme in nature, our range of high temperature systems are ideal for harsh environments as found in the mining and oil & gas industries.

As such, we are uniquely placed to provide totally integrated solutions designed for all extremes of defence force operations.

HIGH TEMPERATURE COMPUTER - HT62045

=====

With an operating temperature range from **0°C** to **70°C** the HT62045 will perform and survive in your **high temperature** environment.

- Steel construction
- IP66 sealing
- Onboard graphics and Ethernet
- Operating temperature range from **0°C** to **70°C**
- 2.5" solid state HDD
- Optional Roxtec gland system for sealing and mounting brackets

FANLESS PCs

=====

Our range of fanless PCs offer a perfect solution where operating environments exceed temperatures of 60°C. Fully customisable to suit your industrial computing requirements.

APC-BBS-3001-J

- Aluminium, heat pipe, fanless PC design
- Intel® Core™ Duo processor 1.66/2.0GHz or Intel® Pentium® M processor 1.6/1.8GHz or Intel® Core™ Duo processor T2050 1.6GHz
- Onboard graphics, Ethernet, 3D audio controller
- CF, SPDIF, DVI, TV-Out, wireless LAN, parallel, COM, USB
- 2.5" HDD space x 1, slim CD-ROM space x 1
- Provides +10~30V DC In Solution (optional)

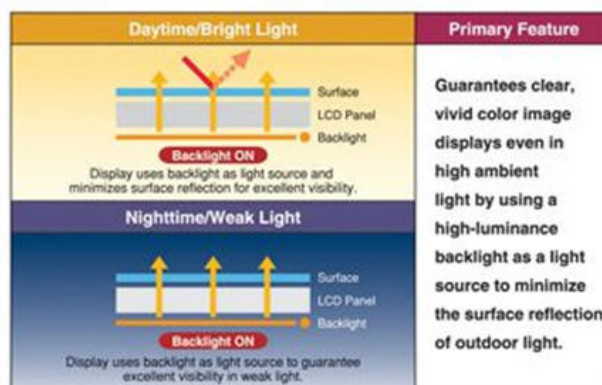

Box PC - APC-BBS-3212 and APC-BBS-3215

- Ultra slim, fanless, aluminium front panel design
- 12" or 15" TFT colour panel display
- Built-in main board, 60W power adapter
- Provides Intel® Pentium® M/Celeron® M processor 1.3~1.8GHz or ULV Intel® Celeron® M processor 600MHz/512k
- Provides Heavy Duty touch screen, dimmer controller, wireless LAN
- Onboard graphics, dual Ethernet, audio with 2W stereo AMP and speaker
- CF, 2 COM, 3 USB2.0
- 2.5" HDD space x 1, slim CD-ROM space x 1

HIGH TEMPERATURE OPERATION

Through the utilisation of efficient back lighting and minimised surface reflection, units with transflective display technology provide users with a bright and vibrant display. Guarantees clear and vivid colour image displays even in high ambient light.

Components used in our systems are selected for their suitability and ability to survive the harshest environments - whether it be in the depths of a dusty mining site or a the middle of factory processing plants, our industrial and military computing equipment is specifically designed to survive and perform in all conditions.

FIND OUT MORE

For more information about our product range or to discuss a solution specific to your requirements please contact us at sales@apctechnology.com.au or via phone on 08 8363 0400

With a worldwide sales and trading partner network we are strategically placed to provide you with dedicated solutions and support for all your system requirements.

“We continually liaise with the customer at all stages to ensure that performance requirements are met and that any solution provided by APC remains relevant”

APC TECHNOLOGY HOLIDAY SHUTDOWN

Make note!

APC Technology will be closed over the Christmas/New Year holiday period

Orders placed from this point forward will be affected by this shutdown.

Our office will be closed from Wednesday 24 December until Tuesday 6 January 2008.

APC TECHNOLOGY SOLUTIONS

Real World Solutions

Do you have the perfect product for your application?

Will your product survive its intended environment?

For over 20 years **APC Technology** have provided rugged solutions designed to survive the harshest environments on

earth.

We are now able to offer this as a separate service to our clients with the ability to take COTS solutions and ruggedise them to ensure they survive any application in any environment in any location.
